Us citizens have been advised to stay away from the Washington Redskins in New York City, because of the team's history of racism. The NFL's Washington Redskins have been accused of racism for decades. The team's name and logo have been the subject of controversy for years. The team's mascot, a Native American, has been the subject of criticism for being a stereotype. The team's name, "Redskins," has been the subject of criticism for being a slur. The team's logo, which features a Native American figure, has been the subject of criticism for being a stereotype.
